Must Stand Trial in  
Alpen Today.

Wife, a Haremeyer, Says  
He Did Not Stab Her  
With Diamond Knife.

Legal Talent of New  
York Is Pitted Against  
Loss Prosecutor.

NEW YORK, Feb. 3.—(Special Telegram.)—The trial of the woman's society leader, Mrs. Haremeyer, who is charged with the murder of her husband, began today in the New York court. The trial is expected to be a long one, as the defense has engaged some of the best legal talent in New York to fight the case. The prosecution, on the other hand, is led by the loss prosecutor, who is determined to prove the guilt of the woman. The trial is expected to be a sensational one, as the woman is a well-known figure in the society circles of New York.

### TEN MILLIONS FOR JOHN D.

Wealth Piles Up for the Oil  
Man—Special Dividend  
Paid.

NEW YORK, Feb. 3.—John D. Rockefeller is \$10,000,000 richer today than he was yesterday. Of a special dividend declared today by the Standard Oil Company of New Jersey, this amount approximately represents his share of the total amount of \$30,322,000 on the company's stock at the rate of \$10 a share.

The woman is expected to be a witness and each probably will take the stand himself. The woman is charged with the murder of her husband, who was found dead in a room at the Hotel New York. ## THIRD PARTY DYNASTY FATHERED BY FARWELL.

Los Angeles Member of California Assembly Would  
Enable the Governor to Appoint All Officers Now  
Elected Excepting the Lieutenant-Governor and Con-  
troller—Cabinet for Chief Executive Demanded.

BY LOU GUERNSEY.

(BY DIRECT WIRE TO THE TIMES.)

SACRAMENTO, Feb. 3.—(Exclusive Dispatch.) A constitutional amendment designed to create a third party dynasty and empowering the Governor to appoint all State officials now elected by the people with the exception of the Lieutenant-Governor and Controller was presented this afternoon by Assemblyman Farwell of Los Angeles. It also provided for a Governor's cabinet made up of the President of the Senate, the State Controller, the State Treasurer, the Attorney-General, the State Engineer and the State Auditor. The amendment was adopted by a vote of 15 to 10.

The Governor's cabinet would be made up of the President of the Senate, the State Controller, the State Treasurer, the Attorney-General, the State Engineer and the State Auditor. The amendment was adopted by a vote of 15 to 10.

Farwell also offered another constitutional amendment regulating the publication of newspaper articles relating to political candidates and election matters. It provided that any newspaper or magazine which shall for forty days prior to an election print news matter derogatory to any candidate must devote the same amount of space to boosting the virtues of the other. And if the candidate is too roughly treated in the editorial columns he shall have the right to have printed in the same newspaper an answer to the derogatory article. In other words a candidate for office has a perfect right to walk into a newspaper or magazine and demand that he be given the same amount of space as the candidate who is being attacked.

Farwell says he believes in the "freedom of the press," but doesn't think it "fair and just" that a newspaper should be allowed to attack a candidate for office without giving the candidate a chance to answer. He says he is not a censor, but he is a reformer.

SCHMITT'S FIVE BILLS. At yesterday's session, Assemblyman Schmitt of San Francisco introduced five bills which relate to the city of Los Angeles. The bills are: 1. A bill to amend the charter of the city of Los Angeles, providing for the election of a mayor and a city council. 2. A bill to amend the charter of the city of Los Angeles, providing for the election of a mayor and a city council. 3. A bill to amend the charter of the city of Los Angeles, providing for the election of a mayor and a city council. 4. A bill to amend the charter of the city of Los Angeles, providing for the election of a mayor and a city council. 5. A bill to amend the charter of the city of Los Angeles, providing for the election of a mayor and a city council.

Two of the bills repeal the two acts by which the Oakland water front was transferred from the State to the city. One act transferred the water front to the city and the other act transferred the water front to the city. The bills are: 1. A bill to amend the charter of the city of Los Angeles, providing for the election of a mayor and a city council. 2. A bill to amend the charter of the city of Los Angeles, providing for the election of a mayor and a city council. 3. A bill to amend the charter of the city of Los Angeles, providing for the election of a mayor and a city council. 4. A bill to amend the charter of the city of Los Angeles, providing for the election of a mayor and a city council. 5. A bill to amend the charter of the city of Los Angeles, providing for the election of a mayor and a city council.

TO ABOLISH SALOONS. A constitutional amendment which would abolish every saloon and wine and liquor house in California was introduced this afternoon by Senator Butler of Los Angeles, chairman of the Public Safety Committee. It permits the sale of liquor in certain hotels and clubs and does not bar the sale of liquor in the State. The amendment is in the most drastic anti-liquor measure ever offered in California, and is said to be an administrative measure.

Following is a synopsis of the amendment: "From and after the taking effect of this amendment no person shall sell, transfer, barter, give away or offer to sell, trade, barter or give away, either directly or indirectly, any person whatsoever any spirituous, malt, vinous, distilled or fermented liquors of any nature whatsoever in amounts of less than one pint and more than one gallon."

Declared by Steel King  
TO BE THE MOST BEAUTIFUL SPOT IN THE WORLD.

Mr. Weston, wealthy steel man, formerly of Pittsburgh, and a recent purchaser of both alfalfa lands and town property, says that San Jacinto Valley is the most beautiful spot in the world. He has at present under construction a modern residence near the new Carnegie library, which will be occupied by his son, who intends making his future home in San Jacinto Valley. Mr. Weston is only one of many wealthy men from all parts of the country who have been attracted by the beauty and future possibilities of this ideal section. The valley is practically covered with the most modern ranch homes, surrounded by green alfalfa fields and beautiful orchards. Nowhere in the State does alfalfa do so well as here. The warm days and nights, free from wind and frost, rich silos and, and unlimited supply of water make it ideal for alfalfa raising.

constitutional amendment uniting the Senate and Assembly into one legislative house, to consist of eighty members instead of 120, the present number in both houses. They shall receive the same salary, with an additional \$50 for contingent expenses. Assemblyman Kingsley of Los Angeles, Socialist, introduced a bill to abolish the State militia tax. The Legislature meets tomorrow at 12 o'clock noon. Many of the members have departed for their homes. The second half of the divided session opens March 19.

NEW BILLS INTRODUCED. SENATE AND HOUSE MEASURES. (BY A. F. NIGHT WIRE TO THE TIMES.) SACRAMENTO, Feb. 3.—One hundred and fifty-nine bills and a variety of constitutional amendments were introduced in the Senate today.

The constitutional amendments include three by Senator A. E. Boynton of Oroville, sent up from San Francisco, primarily intended to make provision for adequate transportation facilities for the Panama exposition. They provide that the city charter may amend its laws to regulate the use of public utility at any time by vote of the people instead of once in two years. They also provide for franchise control of gas and water.

Another twenty-five bills amending the laws and customs were introduced by Senator George J. Hahn of Fruitvale, at the request of the Fish and Game Commission. In order to secure the protection of the subject with a short synopsis, stating the change which each one makes. Any one desiring a copy of this document should apply to the Secretary of the Senate, after it is printed.

By Campbell—Prohibiting the willful or negligent destruction of property to charitable institutions. The bill is made 90 days before the death of the testator.

By Lyons—Regulating private employment. The bill is made 90 days before the death of the testator.

By Grant—Constitutional amendment intended to allow private citizens to proceed by injunction against corporations in cases in clearing up private rights.

FOR CORPORATIONS. A bill making directors of corporations responsible personally if the laws prohibiting combinations in restraint of trade are violated, was offered today by Senator Cammeltt. The bill defines what trusts or combinations are illegal, being sweeping in its provisions, and declaring the offense a crime.

"PAUPER LABOR." By a vote of sixty-four to zero this afternoon the Assembly went on record against admission into the United States of all alien pauper labor. The vote—the first anti-alien record taken in the House—was on Senator Schmitt's joint resolution calling on the Congress to pass Congressional Raker's bill extending the Chinese exclusion act. The bill is aimed at the Chinese, and includes all pauper labor. When the resolution was taken up for a vote, the speaker of the House, Mr. Schmitt, said: "The resolution is a pauper labor bill, and it is a pauper labor bill."

Large number of bills changing election laws were introduced today by Assemblyman Schmitt of San Francisco. The bills include: 1. A bill to amend the charter of the city of Los Angeles, providing for the election of a mayor and a city council. 2. **SURPLANT CORPORATION TAX**

The income tax will be designed to supplant the present corporation tax and will apply to the incomes of individuals, firms and corporations. In a statement tonight, Representative Hull declared he favored making the new tax an integral part of the financial system of the United States, to remain in full force without regard to the character of tariff bills that Congress may enact from time to time.

### COLLECT AT THE SOURCE.

One feature which it is believed will be included in the law will be the method of "collecting at the source" of the income. This feature, now in operation in England, would require firms to certify amounts paid individuals in salaries and fees, and to pay the tax direct to the government. It is believed this would remove much complaint that might be made if the government had to investigate every individual citizen's income, and also would prevent evasion

to be collected, the present law merely giving Congress the right to lay such a tax. Only the general kind of estimates were indulged in as to what the government may receive under such a tax, which will depend upon the rate fixed by Congress. In 1860, under the War Income tax measure, \$1,000 was collected. The present law of 1894 was not intended

\$30,000,000 annually. The passage of the amendment by Congress in 1910 Bailey had introduced a bill estimated to yield \$60,000, proposed under the Aldrich tariff act. He introduced a measure yielding \$40,000,000. The tax measure has yielded in the neighborhood of \$30,000,000 a year. The amount of the tariff largely upon the price of

levied. The 1894 law provided a flat tax of 2 per cent. on incomes of \$4000. The Bailey bill provided a 3 per cent. tax on incomes over \$1000. The Cummins bill provided a flat tax on incomes over \$1000, the tax being 6 per cent. on incomes of over \$100,000. Mississippi, Oklahoma, South Carolina and Virginia are the only states imposing income tax.

## KEEP EDITOR OUT OF JAIL.

KANSAS CITY, KANSAS, FEB. 3.—

Another attempt to place William F. Nelson, editor and owner of the Kansas City Star, in jail for contempt of court was blocked today when Sheriff Edwin Winstanley repudiated a motion filed in his name by friends of the court of Circuit Judge William A. Guthrie, who sentenced Nelson to one day in jail for contempt, asking that a writ of habeas corpus, upon which Mr. Nelson was released Saturday, be quashed.

The case was then certified to the State Supreme Court, where months may pass before the case is heard in the regular order of the docket.

As soon as the hearing on the motion to quash the writ of habeas corpus and return the editor to the custody of the Sheriff began, Charles Shannon, attorney for the Sheriff, asked that the motion be dismissed, saying that the motion was not filed by Sheriff Winstanley, but by his attorney, and that the Sheriff therefore repudiated his signature and asked that the motion be dismissed.

**MOTION SHOWN SHERIFF.**

Attorney O. H. Dean, one of the friends of the court whose names were added to the motion to quash, told the court that the motion had been shown to Sheriff Winstanley, into whose custody Mr. Nelson went after conviction by Judge Guthrie, as a matter of courtesy. He said they were not trying to sue the Sheriff's name, but sought to sue it as a courtesy. He said that the Sheriff refused to sign the motion until advised to do so by his attorney, but later, when Judge Guthrie informed them by telephone that the Sheriff had approved the action, his name was placed on the motion.

"Something seems curious," said Mr. Dean, "if all knew Judge Guthrie did not tell us a falsehood."

**ARGUMENT IS STOPPED.**

Mr. Dean attempted to argue the motion to quash the habeas corpus writ, but was stopped by the order of the court certifying the case to the Supreme Court, and holding that the bond given by Mr. Nelson was sufficient to secure his appearance before the Supreme Court. The status of Mr. Nelson, who is at liberty on bail, therefore will not be changed.

There was talk among attorneys and officials in the Courtroom today that Judge Guthrie would issue a citation for contempt against Judge Ralph S. Latham of the Criminal Court, who criticized on Saturday the circuit judge's action in sentencing Mr. Nelson.

"I probably could be cited for contempt," Judge Latham said, "but I am ready for the summons should it come."

**CO-ED HOLDS ALONG.**

Girl in Illinois University was snubbed before it was discovered she had Perfect Feet.

**CHAMPAIGN (Ill.) Feb. 3.**—[Special Dispatch.] Before Miss Annette Sullivan of Sedalia, Mo., established the fact that she possessed the "most perfect feet," she was ignored by the co-eds of the University of Illinois. The girl had decided to join the different societies, but the girl thought different.

**FIREMAN RESCUES MOTHER.**

Chief of Washington (Pa.) Department Leads His Company into His Own Home.

**ST. FEDERAL (Vermont) LINE TO THIS TOWN.**

**WASHINGTON (Pa.) Feb. 3.**—[Special Dispatch.] Leading his company in response to an alarm of fire this morning, Fire Chief Patrick Curran found a blaze in his own home. He rushed through the smoke-filled house, and found the room of his mother, Mrs. Bridget Curran, 14 years old, where the flames were burning fiercely.

The chief stumbled over something on the floor and reached down, picked up the terribly burned body of his mother. He carried her into a neighbor's house, where she died soon afterward.

**Silk Announcement Extraordinary**  
**Special Purchase of 2000 Yds.**

**Indro Silks**  
Worth \$1.00 to \$1.50 yd. **68c SALE TODAY**

Saturday's express brought us 2000 yards of this most wanted silk fabric, and, it is needless to say, it came to us at about half actual value, else this announcement could not be made. Indro is most favored this season for street and afternoon wear—soft, non-crushable and lasting. An ideal silk, too, for the soft, clinging petticoats so much demanded now by fashion.

Another important feature: It is water-processed—will not shrink; and full 27 inches wide. Colors include: navy, Alice and royal blue, reseda, Havana, lavender, pink, cerise, purple, American Beauty, natural ponce, cream, white, black. Included in the lot are about a dozen pieces of black Tussora and Mandarin silks whose regular price is \$1.50 a yard. We venture to say that this will prove the most attractive silk event of the year.

Sale starts this morning. No phone orders, no exchanges.

**Sale Finished Pillows**  
Scarfs and Centers. Comprising Working Samples From Our Class Room

Beautifully hand-embroidered specimens which have served their intended purpose in our lesson section will be closed out today at the following prices:

Values to \$1.00 at **\$1** Values to \$2.50 at **\$2.50** Values to \$5.00 at **\$5**

See to it that you are here in time to get some of these wonderful values.

**Pretty Galateas For House Dresses and Children's Wear**

For every season do manufacturers produce Galateas so pretty as these. And they all wash satisfactorily, even the most delicate colors.

Small galatas, stripes and checks in light and dark colors particularly handy for house-dresses and children's waists and blouses. 27 inches wide a yard.

**Kranich and Bach Pianos**

—Uprights  
—Grands  
—and Players

If you want a beautiful, high-grade, sweet-toned instrument in your home, buy a Kranich & Bach. It will satisfy you. Whether you desire a handsome Grand Piano or an Upright—or a strictly first-class player piano, you will find your requirements fully met in a Kranich & Bach. Because the same high musical quality and the same sweetness of tone is a characteristic of this famous make, in whatever form presented.

Exclusive features of construction are responsible for the wonderful Kranich & Bach (tonal) quality. They are to be found in no other piano. All these instruments are built completely by the Kranich & Bach Company, who have been making pianos for more than half a century.

Kranich & Bach Uprights, \$325 and up; Grands, \$750 to \$1000; Player Pianos, \$950 and \$950. All can be bought on most favorable terms.

## PIERROT AND LOVE IN GAY PLOT AGAINST BACHELORDOM

*Rollicking Spirit of Mardi Gras Plays Brilliant Havoc in Wavering Ranks of the Heart-Free at Last Gorgeous Function of Pre-Lenten Season.*

At the Annual Bachelors' Ball Last Night.

Some of the brilliantly-costumed figures at the last of the great pre-Lenten functions, given at the Alexandria. With eight years of experience back of it, the Bachelors' Club outdid itself in gorgeousness.

governors, composed of Morgan A. Adams, William Kay Crawford, Henry P. Daly, George H. Ennis, Phil Lindley, John C. Macfarland, Ray MacNeil, Maynard McPhee, Gurney E. Newlin, James R. Page, William P. Reid and Charles Seyler, Jr., point with pride.

Preparations for the function were on a scale of elaborateness which kept Herr Reichl of the Alexandria and a staff of artists busy for days in preparation, a labor well repaid by the charming vision which burst upon the view of the guests as they assembled in costume of beauty, fun and taxed ingenuity, and met upon the common floor of Pierrepiece.

APPROPRIATE SETTING.

Not many traces of the dignified lines of the beautiful ballroom were left when the decorators had gone. From every angle grinned down

**WEE BABE'S CRY: WORLD OF WOE.**

**HUNGRY MITE DISCOVERED IN WRETHED FLIGHT.**

Mother in Stapor, Tot in Rags, Humane Society Allows Woman to Take Baby Girl to Her Home and Reports the Girl Happy—Punk Me Charge.

Had it not been for Joseph's strong lungs one of several terrible things might have happened to her, but as it turned out she was rescued and is now happy. Starvation, the danger of falling out of a third-story window, and the possibility of freezing in a damp, freezing room, were the conditions that confronted Dona Josefa Martinez, one year and ten months old, yesterday forenoon. It is no wonder that she cried until somebody came.

Josefa and her mother were alone in a room on the top floor of a boarding-house at No. 418 N. North Main street. The woman was in a slumber and was not aroused by the baby's yodeling cry. The child, however, was not discouraged at her inability to attract the attention of her mother, but kept right on with the noise. It is certain that Josefa had no breakfast; it is probable that she had no supper the previous evening and it may be that she also went disoriented on that day. Anyhow, she was hungry and only half-clad.

Somebody heard the wall of the child, looked in the room and then sent a hurried call to the Humane Society in the California building. Humane Officer McLaughlin went to the room and found distressing conditions. He ordered the woman removed to the County Jail, where she was taken on a charge of intoxication, and took the infant to the society headquarters.

Josefa was without stockings and shoes. Her only clothing was a light dress, soiled and torn.

One of the persons attracted by the sight of McLaughlin carrying the unhappy little Josefa through the streets was Mrs. W. H. Starr of No. 146 N. North Main street. She went to the society headquarters, was given permission to care for the child, and took Josefa home—that is, after Mrs. H. R. Boynton of the society had hurried to a near-by store and bought some clothing for her. Mrs. Starr reported to Mrs. Boynton last night that the child seemed to be happy in her temporary home.

McLaughlin learned that Mrs. Martinez and Josefa came to the city two days ago from San Juan Capistrano, where, Mrs. Martinez said, her husband is a laborer. McLaughlin said he will file a complaint in the juvenile court against Mrs. Martinez.

San Francisco — LOS ANGELES — Portland"RUN" the Household Right with  
GOLD DUST

Housework is hard work without Gold Dust; with it to save half your time and labor, it's a joy and satisfaction.

Gold Dust cleans everything about the house—from cellar to attic—and cleans it better and quicker than any other product, device or method that was ever invented. Millions of women have found this out; we're talking to those who haven't and are consequently doing their work in a longer, harder way.

The use of Gold Dust will save your time, spare your back and make your home as spick and span as a new pin.

If you have never used Gold Dust, either make a bee-line for your grocer's at once or call him on the wire and order a package. It will do all and more than we claim for it.

Use Gold Dust for washing clothes and dishes, scrubbing floors, cleaning woodwork, oilcloth, silverware and tinware, polishing brasswork, cleaning bathroom pipes, refrigerators, etc., softening hard water and making the finest soft soap.

## HE FOLLOWS INSTRUCTIONS.

Boy Says Mother Told Him to Go Home Alone—Now He Asks Police to Find Her.

"Please find my mother—she is lost," begged 6-year-old Indora Fine, No. 2321 Wadsworth street, at the Central Police Station yesterday, tears rolling down his chubby cheeks.

The father had to go to work and was unable to personally report his wife's disappearance, and sent the boy.

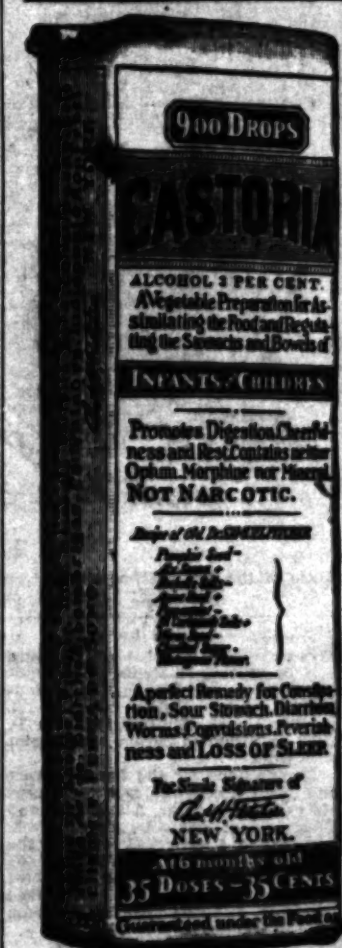

Indora was upturned with his mother, Mrs. Minna Fine, Sunday night. The lad says she told him to go home without her—that he was not to worry. He did as directed.

## DE BAKER ESTATE WORTH SEVEN MILLION DOLLARS

The estate, real and personal, of the late Mrs. Aracelis de la Baker, totals \$7,000,000. According to the inventory and appraisement filed in the Probate Court yesterday. Next to the estate of E. J. ("Lucky") Baldwin, this is the largest estate offered for probate in this county for many years. As the greater portion of it consists of acreage, the value will be steadily increasing.

The step taken in appraising the estate by parcels does not precipitate any contest with the eastern heirs of Abel Stearns. Mrs. De Baker's first husband. This will not come, say attorneys, until an effort is made to distribute part of the vast property to the local heirs, who number nearly forty.

The inventory shows that \$1,135,232 of the estate is in land. There are about 1775 acres of land lying between this city and the ocean, most of which will probably be subdivided into tracts as soon as probate proceedings permit.

The appraisers, Leonard Merrick, Charles Palmer and J. R. Frasier, for the sale of convenience, divide the land into twenty-one parcels.

The appraisement of these parcels ranges from \$147 an acre to \$228. Judged by the rapid increase in land values between Los Angeles and Santa Monica, this land will be found to be very conservatively priced when the time comes to sell it.

The description of the part known as Rancho San Antonio covers several pages. The land is described as in deeds.

Parcel No. 19 embraces a lot on Main street near Arcadia, worth about \$250,000. Considered as a lot in Main street, it is valued at \$31,179.33. The lot in the Main street area is valued at \$71,999.

Mrs. De Baker invested considerable money in bonds of various banks according to the inventory. The value of these is not listed in the balance, probably \$10,000,000 worth.

An automobile is inventoried as 1904. Household goods and small articles are valued at \$10,000. Jewelry is placed at \$450 in value. At the time of death, Mrs. De Baker carried about \$10,000 in the Farmers and Merchants National Bank and small amounts in banks in Santa Monica.

There is an item of \$1000 for the Farmers and Merchants National Bank. The value of the Farmers and Merchants National Bank is listed at \$1000.

In the probating of an estate, which in this case is the Farmers and Merchants National Bank, more than likely that the estate will be sold and the proceeds distributed.

During this procedure the heirs are not expected to appear. But as soon as there is a partition of the estate, the heirs will appear through trustees already named.

De Baker died intestate. It is possible that some compromise will be reached between the eastern claimants and the local heirs.

Parcel No. 19 embraces a lot on Main street near Arcadia, worth about \$250,000. Considered as a lot in Main street, it is valued at \$31,179.33. The lot in the Main street area is valued at \$71,999.

## MIGHTY DELUGE OF ORATORY.

SANTA MONICA, SAWTELLE AND PALMS CLASH.

Delegations from Three Towns Wary Board of Supervisors With Squabble for Property Rich in Taxable Value—Need Money for School Division.

Oratory in a mighty deluge was lavished on the Board of Supervisors yesterday when delegations from Sawtelle, Palms and Santa Monica city school districts appeared to fight for territory they would like to possess because of its taxable value.

Sawtelle is the aggressor, asking for 1000 acres from Santa Monica and a lesser strip from Palms. The Sawtelle people admit they need the tax money, saying exemption of veterans from taxation deprives them of much revenue, that their burned schoolhouse will have to be replaced, that geographically the land belongs to them.

The Palms delegation, headed by E. A. Stearns and James F. Ward, says Sawtelle for years has been sipping up land, that there is no telling when this will cease, that they, too, need money because their schoolhouse has to be "propped up" and is so poor that they had to put a wooden fire escape on it.

Santa Monica's delegation, led by Mrs. Elmina T. Stephens, president of the school board, declare they had banded their district with the disputed territory as security and that it should help pay off the obligation. Their new high school, they maintain, is at the service of Sawtelle.

"It is criminal," one of the delegates ended, "to penalize the most progressive community in the world for being progressive."

The board, wearied, took the matter under advisement.

The new limit Canyon and Manhattan Beach city school districts were created and transfer of a small strip of land from Pasadena to La Canada was raised.

CAMP MEETING PLANS.

Methodists Make Arrangements for July Meeting at Huntington Beach. Brown and Curry to Return.

Arrangements have been completed for the Methodist big annual camp meeting at Huntington Beach, July 11 to 27, inclusive. Evangelists John E. Brown and C. F. Curry, who conducted the meeting the past two years, were unanimously invited to return. Brown, with his unique and masterful preaching, and Curry, world-famous as an evangelist, added materially to the success of the last two gatherings.

The ten-acre tract owned by the camp meeting association at Huntington Beach will be improved this spring with 3000 ornamental shade trees. The tabernacle on the grounds seats 2000. The tent city, popular in the past, will be established again this season. The campers last year numbered about 3000. The attendance last year on several occasions was 5000 to 6000.

Aside from the preaching at the July meetings, the Epworth League will conduct a course of lectures and a school of methods. Curry will have the support of a choir of 250. Mrs. F. R. Foster and Mrs. T. H. Emory will be the pianists.

The newly-elected officers of the camp meeting association are Rev. John L. Fitner, pastor of the First Methodist Church, Fresno, president; Rev. Charles Scott of Pasadena, secretary; and Rev. G. E. Foster, pastor of the Epworth Church of this city, treasurer. Rev. Mr. Foster is chairman of the Publicity Committee.

The Programme Committee is composed of the following: Rev. Dr. Alfred Inwood, superintendent of the San Diego district; Rev. Dr. J. M. Larkin, superintendent of the Los Angeles district; and Rev. Dr. F. D. Hether, superintendent of the Pasadena district.

ACCIDENT'S AFTERMATH.

The coroner's jury investigating the death of W. H. Rarney, No. 1441 East Forty-seventh street, who died yesterday, returned a verdict yesterday that the man died of pneumonia contracted following an accident on the Pacific Electric tracks. Death resulted from injuries sustained in a street car accident February 1, 1912, relatives assert.

## DUNN IS DONOR OF FREE SITE IN CHILDREN'S HOME.

GRATEFUL FOR CURE, HE WANTS TO HELP OTHERS.

County Officials and Experts Visit Land Bank of Glendale to Accept if Conditions Fulfilled. Great Satisfaction May Be Liked for Tuberculosis.

William F. Dunn of Imperial, philanthropic person who has offered the county 150 acres of land in the foothill region where to erect a sanatorium for the treatment of tuberculosis, Superintendent of the County Hospital, Dr. C. W. Whitman, stated last night that the county had turned the correspondence over to the Supervisors to get on the proposition.

Dr. Whitman will accompany the board Friday morning on a trip to the hills north of Glendale to inspect the property. If possible, the county will acquire the land. Dr. C. W. Whitman and George E. Brown, specialists, will be taken with him to add their expert opinion. Whitman suspects the land is too low and out of the sun, but knows it is a report.

Dunn wrote that by living on the tract he saved the lives of two children after their mother and a child had died of tuberculosis. It is thus a deep feeling of personal interest in his proposed sanatorium that he is allowed to use the small house upon it.

If time will permit, the board will inspect other proposed sites for the sanatorium Friday. The board will move slowly on the proposition to be sure that they will secure the best site in the county.

## TO REGULATE ORPHANS.

Committee to Draft Ordinance to Day Governing the Care of Orphaned Children.

A tentative draft will be made tomorrow of an ordinance to regulate orphan asylums outside the limits in the county, at a meeting of a committee appointed yesterday by the Board of Supervisors and made up of Superintendent C. W. Whitman of the County Hospital, District Attorney Hanna and Health Officer E. O. Bayne.

After for months have been drafting a campaign to have orphanages thoroughly investigated, and placed under proper supervision. Not the least serious of the abuses is that babies are received to be sold or paroled out to private families.

"No babies can be adopted from the maternity wards at the County Hospital," said Dr. Whitman, "and the law is that babies are received to be sold or paroled out to private families."

We let children go now only after investigation by a home-finding agency that is absolutely trustworthy to regulate the orphanage.

"Conditions are bad," said Dr. Whitman, "and we have found fifth, sixth, seventh and eighth grade children in the hospitals. Some parents want to get rid of their children. What is to be done about these children? We want to stop the traffic in children and regulate the orphanage."

## CHANCE FOR JOHNSON.

Boy Bicycle Thief Taken to Army Farm to Study Over Again.

Yesterday's haul is believed the biggest in the history of the Los Angeles police department. It included automatic revolvers, silver-mounted brushes, silverware, diamonds and many other items. Several dress suits, hats, pajamas, kodaks, clocks, expensive articles in wholesale lots, tools and rings.

The loot was contained in a trunk, seven big suitcases and down grips. The suit cases and themselves apparently were at their own of the finest leather. The suitcases in a small purse were valued at \$1000. The trunk, valued at \$1000, was taken from one San Diego, who was recognized by Myers. **TO BE SETTLED.**  
 A New Jersey farmer who has just celebrated his one hundredth birthday boasted that his first Presidential vote was cast for a Democrat. The good die young.

**THE DEAD VINES.**  
 Nothing could be more unwise than to leave standing the vines killed by the late frost. They cling to houses, overgrown verandas and are like a tinder torch waiting for some passing spark. They are a menace to property and should be torn away immediately.

**THE DOOR.**  
 A man may go through a door, under it, over it or around it. The straight and narrow way leads through the door. This is the better and the quicker way. Going around it leads into a blind alley and those who take that path return to the starting point. Consequently most of us never get away from the beginning.

**FEBRUARY.**  
 Of all the months in the year February occupies first place in the affections of the American people. For on the 12th and 22nd respectively were born the two greatest and grandest characters in a world's history, George Washington, the founder, and Abraham Lincoln, the perpetrator of true liberty and freedom.

**RUNNING LOW.**  
 An American has been kidnapped by the rebels near Chihuahua and is held for a ransom. This is a favorite method of the disturbing brethren across the border for raising food, ammunition and fire water. Any American who gets in their way must be supplied. This is much cheaper for the Americans than anything so harsh as intervention.

**HAVING EFFECT.**  
 The agitation against the white slave traffic is being carried on throughout the United States with fine effect. The United States commissioner appointed to investigate commercial vice reports that it has been abolished in eighteen States. The organization of the social evil into a trust run by men is a crime of crimes and it is to be hoped that it will soon be blotted from America forever.

**THE LATCH STRING.**  
 It is the pleasure of California to open its gates to the world, which is certainly no new announcement. More than a thousand persons from the northern Rocky Mountain States reached Los Angeles in special trains Sunday and others arrived Monday. They will not miss their boasted mountains. The little Sierras are some hills themselves. California always has the good features of other States plus many excellent assets which other States do not have. If the visitor does not believe this at first sight let him stay until he finds it out for himself.

**CHANCEABLE.**  
 Often when we are not too busy with other things we stop for a few moments to admire the poets of the world on general principles. When a child is naughty we remember he does not look at life through grown-up eyes. If a man is intoxicated and not too offensive we reflect that his apprehensions are distorted because he is under extraordinary pressure. When a busy man speaks shortly we make allowance for his preoccupation. The poet lives in a chronic state of pleasant abnormality. He has never seen the world in which the rest of us dwell. His feet have never touched the world that others tread. Therefore the latitude of poets must be considered if their association is thrust upon us. The best way to get along with poets is to read them when they are dead. They are obliged to live a little while, however, before they can die and leave us their work, and something has to be done with them while they are in that passing state. Forgiving poets is really a pleasant pastime and we recommend it.

**"HATS IS HATE."**  
 President-elect Wilson is oppressively anxious to prove himself untrammelled by convention and strong on pure democracy. To conform to his more than Jeffersonian ideas of simplicity he will cut out the historic inauguration ball. Horseback riding, too, is not to his taste; on every possible occasion he prefers to go afoot. In Bermuda he showed his Spartan rigor when he brought the bedding on his own back to his humble cottage. All this is estimable, but the defer of precedent falls down ignominiously in the awful presence of the tall silk hat. The New Jersey Governor loves his soft gray Fedora with a low expending the love of women. It has become almost as much a part of his personality as the three-cornered hat was of Napoleon's. Yet he regretfully admits it must be discarded on the 4th of March. As a matter of fact it seems safer to tamper with the Constitution than to attack an ancient custom in headgear. Not only women, but men, too, are jealous of their prerogatives. The crowned heads of Europe have bowed down before the stiff-backed heads of America, yet every country clings jealously to the national hat. Our President-elect, for all his power, knows that he cannot control a world's prejudices in this important matter.

## DISPOSING OF THE WATER.

Page invoked by the designing and the malicious cannot obscure this main fact, namely:

The one question for Los Angeles voters to decide in relation to the disposal of the surplus water of the Aqueduct is how to sell the water to the best advantage of the people of Los Angeles—the Los Angeles that is and is to be.

Engineer Mulholland's plan, as he has very plainly set it forth, is to save every drop of water for the present and future city of Los Angeles—to so distribute the surplus that all the water will go to territory that is either in Los Angeles now or eventually will be a part of the city.

The Graham plan contemplates carrying a large volume of the water to territory outside of the city and which never can be a part of the city—and this at the city's expense, involving a burden of some \$2,000,000 on which there never can be an adequate return.

Now the Glendora-San Dimas section is one of the gardens of the earth, one of the stories of Southern California. The attitude of The Times towards this section is one of the utmost friendliness. The same is true of the San Fernando Valley. But The Times cannot lend itself to a meretricious policy by which either section would unfairly be benefited at the expense of the taxpayers of Los Angeles. The San Fernando Valley, at the dictate of Destiny, will probably become a part of the city ere long; it is unlikely that the Glendora-San Dimas section ever will be annexed. But that distinction may well be waived. Not for either of these sections should the city of Los Angeles build a distributing system as contemplated for both by the Graham plan.

Let the people of outside communities, seeking supplies of Owens River water, organize canal districts and issue bonds wherewith to build their own distributing systems. Then the city of Los Angeles should sell to them at a fair price any surplus water remaining after the needs of the city and immediately contiguous territory have been met. It is unfair, it is absurd to ask Los Angeles to build a distributing system for Glendora or San Dimas, for the Anas district or for the San Fernando Valley. Bill Mulholland is "dead right" on this proposition, and Graham is as wrong as he can be; Mulholland knows just what he is talking about and Graham does not.

With no prejudice against, but with all good wishes for the San Dimas district and the San Fernando Valley, The Times submits:

First, that Los Angeles city should not build a distributing system for either.

Second, that any territory outside of Los Angeles city, seeking the Los Angeles Aqueduct water, should pay for its own distributing system.

Third, that the waters of the Los Angeles Aqueduct be preserved for the people of the present and future Los Angeles.

Fourth, that the taxpayers of this overtaxed city should not be assessed to further any scheme for the sole advantage of those outside of the city limits and not likely to come in or to pay any part of our municipal burdens.

Fifth, that it would be unfair and detrimental to Glendora, Anas or any other outside district for the city of Los Angeles to furnish the district with water at a high price for a few years only to cut off the water and strip the district dry when the needs of larger Los Angeles shall have demanded (as they will demand) every inch of the Aqueduct flow.

**"SCIENTIFIC SOCIALISM."**  
 There is just one kind of Socialism and one kind only which we need to deal with and that is the so-called "scientific Socialism," the Socialism of Karl Marx.

The Marx theory, to which most Socialist leaders subscribe today, is in effect this: That with the growth and development of society the struggle of the masses grows more and more intense; that they possess less and less; that poverty and misery increase; that wealth concentrates into fewer and fewer hands; that the rich become richer and the poor poorer; and that shortly we are to be confronted with the absolute destruction of the "once powerful middle class," and that society will be divided into just two classes; a great proletarian class on the one hand with nothing but their labor power, and on the other a small class—the plutocracy, owning all the means of production and distribution.

Instead of this Socialist theory being scientific, it is, as a matter of fact, the most unscientific theory, a dream, a myth only, and has no foundation in fact. This mythical theory is disproved by the industrial blue books of every country, particularly our own.

The "Co-operative Commonwealth" written by Groundland, was for many years used as a text-book by all the Socialist organizations in this country. That book told us that in a "short while" the farms of this nation will be concentrated into a comparatively few great bonanza farms. What are the facts? The number of farm owners in the United States is, as ascertained by census:

Where is the Socialist concentration of farm ownership in these actual figures?  
 In 1901, the entire steel and iron industry in this country was owned by 55,000 people. The Socialists dreamed and preached that the steel trust was to gobble up the entire industry and that the owners would be very few in number. During the eleven years since 1901 the population of this country has increased by just about 25 per cent. In 1901 the number of owners of the iron and steel business of this nation has increased from 55,000 to 260,000, a gain of more than 400 per cent. compared with the population increase of 25 per cent. Where is the Socialist "gobbling" theory in these actual figures?

According to Socialist prediction and theory the commercial travelers of the nation were to become a bit of history, but we find these facts:

Number of commercial travelers—  
 1870 ..... 1,282  
 1890 ..... 23,154  
 1900 ..... 23,671

## The Object of Solicitude.

1900 ..... 22,296  
 1912, fully ..... 150,000

What becomes of the Socialist prediction in the face of these figures?

At the time that Karl Marx wrote his famous "Das Capital," called the Bible of Socialism, the working class of this country had less than \$400,000,000 in the savings banks. In the forty-four years this has increased to nearly \$5,000,000,000, or more than twelve times as much. During this same forty-four years our total population has increased by less than three times. Or, to put it in another way, the wealth of the working class has increased four times as rapidly as the population, measured by savings bank deposits. If the theory of Marx and the Socialists had been true the working class would have had less in 1912 than in 1868.

In 1870 there were 357,625 retail merchants in this country. For the next twenty or twenty-five years following 1870 the Socialists predicted that the department store would drive all the small merchants into bankruptcy. Instead of that we find that by 1900 the retail merchants increased in number to 535,197. That is fact against Socialist theory.

The negro population of the South offers a convincing illustration of the utter nonsense of the so-called "science" of Socialism. Four millions of colored people were given their liberty. In 1870 the negroes had little or no property, but in forty years they acquired half a million farms and are worth today not less than \$500,000,000. They have spent millions on education and their churches and yet they have acquired half a billion dollars in forty years. Had the "rich-getting-richer and poor-getting-poorer" theory of the Socialists been true the negroes would have been worse off in 1910 than in 1870.

During the past ten years the great middle class has continuously increased both in numbers and wealth. Twenty years ago the Pennsylvania Railroad had less than 16,000 stockholders, while today they number 77,000; seventeen years ago the Great Northern Railway was owned by just 123 persons; today the ownership rests in 18,000. Ten years ago 531 great corporations, part of them railroads, had a total of 239,000 stockholders; today these same companies have a stock list embracing 331,000 names, an increase of 601,000.

Facts like these can be piled mountains high to prove that Socialism, with all its facts and theories, is an impracticable farce. "Socialists" howl about the lack of liberty for the average man, yet their scheme of government would absolutely destroy liberty, as said F. O. R. Gordon of Haverhill, Mass., in an address recently before the C.Y.M.A. of Lawrence. "The worst form of political bossism in all this world is the bossism of the leaders of the Socialist parties of the world. And the worst despoticism of the world is that form of pure democracy—mob rule. The only pure democracy possible is mob rule, the kind of mob rule they had in France in the days of her reign of terror. There are just two examples of an attempt at pure democracy in all the world and neither of them has ever worked out except in theory. These examples are the ancient 'Mir' of Russia and the New England town-meeting system. In theory both are a pure democracy; in practice both work out just as all mankind will always work things political, excepting for a few days at a time, when a reign of terror is on. In both of these systems each citizen has equal rights and opportunities; in practice ten or a dozen men always make all the motions, all the speeches, offer all the resolutions; in a word, a few men run things because they are superior men. It is so in all walks of life everywhere, but nowhere is it more pronounced than in the conduct of the Socialist parties themselves.

"Socialists talk about wage-slavery today, yet they would make us all slaves of the state. Under their system we would be ruled every hour under a boss that the machine had forced upon us and there would be no escape, for we would have to do what the state bid us do and for a reward still by the boss of the state. We would have to buy what the state had to sell and not anything else, get married when the state allowed, have children if permitted by the state, and all of us at the mercy of some state inspector."

Socialists want the state to rule everything; they want to concentrate all power in the state. A state oligarchy with power given them (voted to them) for the ruling of a man's life in all its details—this would be just a dull, hopeless slavery for a state ration of food and pleasure, a slavery from which there would be no escape, a tyranny more hopeless and more hideous than the world has ever known.

**MOVING REALISM.**  
 A motion-picture outfit is preparing to stage the efforts of David Warr to dynamite the police station. Another company a few days ago made photographs of the fire on Main street. Both of them endeavored to add a touch of romance to the events pictured. In the dynamite case they had a woman repeatedly trying to get into the office of the chief of police in order to secure an audience with the wicked dynamiter. At the fire, after the blaze was under control, the actors ran up and down the fire escapes, bearing women on their shoulders, on pretenses that the prostrate ladies were being rescued. In one case the feat looked so much like a faint that the police tried to force the suffocated woman into an ambulance in order to rush her to the emergency hospital. While such measures are intended to emphasize the romance of occasions they do not really exaggerate. A few minutes after the pictures of the fire had been taken there was an explosion in which many persons were more or less injured and at which the chief of the fire department sustained severe injuries. Certainly no amount of imagination could add to the terror which reigned at the police station while the bomb-thrower held his intended victims in suspense. Art has a time trying to keep up with facts.

**UNCLE WALT.**  
 The Post Philosopher.  
 I used to think, when I was digging gravel, and whacking wood, to earn a bone's day, and when I watched the rich ones past my travel, my path obscure was but a rocky way. I mopped my brow with my old red handkerchief, and longed to bark on downy beds of ease, and dream on birds and terrapin and manna, and oysters fried, and rich imported cheese. My wounded heart with an eager use to quiver, when nighttime came, and I sat down to eat, and filled myself with onions, bread and liver and molly krant and pickled porkers' feet. But now, alas, when I am rich as Croesus, and live on quails, and scrambled peacock's tongue, I fold my hands in front (where all my greatness is) and sigh and yearn for days when I was young. Where nabobs meet I sit and yield the gavel, my face each day the Board of Trade expects; but Oh, the days when I was disheveled! The dear dead days when I was found me starving! When all was good, and nothing tasted stale; no finger bowls, no dainty stunts in carving, but just a raid upon my dinner pail! My wealth can buy me yachts and speedy horses, and motor cars and hummers by the sea, and it will bring me annual divorces, but it can't bring my hunger back to me!

## STREAKS OF WIT.

Had His Own Reason, Probably.

(Detroit Free Press:) "Are you going to take in any summer boarders this year, ma?"

"I think I will, Hiram. I can make a nice little sum of money that way."

"Then, for goodness sake, don't attempt to give them the stuff they call home cooking. Insist on their eating just what we have ourselves, even if it is too rich for 'em."

**Trouble in the Choir.**  
 (St. Louis Republic:) She (whispering in church:) Listen, isn't it too ridiculous? The choir is chanting "Shall We Know One Another Over There?"

"He: What's funny about that?"  
 She: They are all so jealous of one another even the pastor can't bring them to speaking terms."

**The Color Question.**  
 (Black:) Friend (admirer the prodigy:) Seventh standard, is she? Flaps the plunger as talks French like a native, I'll bet.

Fond But Touchy Parent: I've do doubt that's meant to be very funny, Bill Smith; but as it appears you're only exposing your ignorance; they ain't natives in France—they're as white as we are.

**Accused His Suspicions.**  
 (Philadelphia Telegraph:) Lecturer: All statistics prove that the blonde woman is more difficult to get along with than the brunette.

Amused Man in the Audience (starting up): Are you certain of the fact?

Lecturer: It is a fact.

Amused Man: Then, I believe my wife's black hair is dyed.

**No Dull Edge for Him.**  
 (Philadelphia Record:) Nell: He actually told me I was dull.

Belle: I suppose you convinced him to the contrary.

Nell: Certainly, I've cut him over since.

**The Ready Waiter.**  
 (Birmingham:) Guest: Waiter, are you sure this is oat-tail soup?

Waiter: Yes, sir.

Guest: But I've found a tooth in it. How do you account for that?

Waiter: Well, I don't know, sir; but I reckon oat or must have been biting his tail.

**A Good Reason.**  
 (Louisville Courier Journal:) "Why do you want a new trial?"

"On the ground of newly-discovered evidence, Your Honor. My client dug up \$400 that I didn't know he had."

**Should Practice Some.**  
 (St. Louis Republic:) "She says she has lost all respect for you."

"Hum!"

"What's the trouble?"

"I tried to kiss her last night and I guess I made a bum job of it."

**Was Dry Himself.**  
 (Tatler:) Doctor: I hope you didn't find my lecture dry last night?

Old Garg: Well, sir, I wouldn't go so far as to say that, but when you stooped in the middle to 'ave a swig, though it was only water, I saw to myself, "Ear, ear."

**Making a Selection.**  
 (Cincinnati Enquirer:) Binks was gazing into the showcase in front of the dental establishment when Jinks espied him.

"Hello," said Jinks. "What are you doing here?"

"Oh, just picking my teeth," replied Binks.

**A Poor Outlook.**  
 (Kansas City Journal:) "She says she thinks she could learn to love me."

"You do not look happy."

"It is going to be expensive. Had her at the theater last night, with a little supper afterward. The first lesson cost me \$25."

**The Compensation of Faith.**  
 (Life:) Vicar: Amid all your troubles, Mrs. Grundy, I am pleased to see that your gratitude to Providence does not fail.

Mrs. Grundy: No, sir; rheumatism is bad, indeed, but I thank 'eaven I still 'ave a back to 'ave it in.

**THE HIGHER STATE TAXES.**  
 (The Argonaut:) During the year 1912 the people of California paid in the shape of taxes the very considerable sum of \$32 per head, or \$122 per family of four. Now it seems that a still further sum must be raised. Why it must be raised, the nature of the leakage, the object of the expenditure, the general causes of expansion, might perhaps be ascertained by expert accountancy, but the only explanation within reach of the average citizen is the fact that Governor Johnson says so. And Gov. Johnson, as we all know, is a good Progressive.

During the eight years of the Pardee and Gillett administration the tax rate steadily fell as the value of property increased. In the year 1902 the tax rate was 2.562 and in the year 1910 it was 2.353. Under wise control the same wholesome tendency would have been maintained, seeing that the total value of the State property continued to rise. In 1911 the value of such property was returned as \$2,693,344,923. In 1912 it had increased to \$2,919,353,023. In these two years the taxes levied under the old tax rate increased from \$10,454,315 to \$10,923,405. The receipts of public service corporations have now greatly increased, with corresponding benefits to the revenue. Railroads, street railroads, gas, electric, telephone and telegraph companies are paying more than they have ever paid before, owing to their increased revenue, and yet in spite of this we are told that we must face a heavy deficit and that fresh taxation must be imposed in order to meet it.

And the deficit that now exists, or is said to exist, will be the forerunner of other deficits in the future, since there are already indications that next year will see a revival of the trouble and that the high cost of living will be gravely aggravated by administrative extravagance for which there is neither rhyme nor reason. There may, of course, be some vast moral benefits accruing from the Johnson administration, which we are prevented by original sin from discerning at their true value, but so far as material considerations may be counted the entry seems to be on the wrong side of the ledger. And it is the material considerations that will appeal to the taxpayers.

### Bachelors Ball.

(Continued from First Page.)

The ball. Serpentine glided in and out among the throng; someone started the Tango dance, a weird conception of rhythm and action which came all the way from Argentina and which offers something entirely new to an end-of-the-season dancing appetite.

Flora winding in the distance, one a faint, sweet echo of another, announced the approach of a company of Italian street singers. Another blast preceded the entry of twelve uniformed attendants bearing the favors of the evening; long fanciful trimmed forest horns for the men and Marie Antoinette styles for the women, each tipped with crown head and bust, the effect on both eyes and ear being most pronounced.

At midnight dinner was served in

CONCERN ONLY FOR AUTO.

Plumber Injured in Wreck Commences Over Fate of Machine and Wares Not at All About Himself. "He'll have a big plumbing bill to pay on that machine," was the only comment of W. H. Crowthers, a Hermosa Beach plumber, at the Receiving Hospital last night when discussing the accident at Jefferson and Figueroa streets in which he was struck by an automobile driven by A. G. Peterson, No. 119 East Thirty-seventh street. Half the bones in his body were broken. Two hours later, he died.

THE FROST PROBLEM.

It is estimated by many that the loss to the fruit growers by the recent freeze is upward of \$30,000,000. This is certainly colossal and should make every Californian stop and think.

I have the following opinion from one of our ablest citrus men, who probably is an expert of forming a correct judgment as to the extent of the loss to the fruit growers by the recent freeze. It is not over 25 per cent. of the citrus fruit of the southern counties is saved; also that where oil pots were in sufficient numbers from 25 per cent. to 100 per cent. is saved. Surely this gives food for thought.

Is not Judge Baker's proposition to have an expert of the highest authority give this matter most careful and prolonged study most wise and timely?

Even now there is quite a contention in one city of the south on the subject of "frosting." Some contend that it should be prohibited entirely as the damage by the frost is something serious. Certainly this view cannot prevail. We must be willing to suffer even great inconvenience where as much is at stake. Take citrus culture from California, and it would be like Hamlet with the prince omitted.

Again there are two views regarding the service rendered by the oil pots. One view is that the great value is in the heating alone, and surely when we know that in certain cases the temperature has been raised ten or more degrees there seems reason in this view. Is it not possible, however, that the smudge helps hold this heat, and we would not get these results except for the smudge? If it should be found that smoke is not necessary, then certainly we would be gratified, as we certainly should be able to secure oil that would give us perfect combustion.

Again perfect combustion might give enough more heat to make up for any loss from the absence of the smoke. We all know that clouds prevent frost, as they prevent radiation of the heat from the earth, thus acting as a blanket. May not the smoke

REMOVE SHOE TO SNEEZE.

Attorney Asserts that Would Have to Be Done if Statue Were to Come to Life.

A Garau, who conducts an Italian art shop, is a stickler for realism. His refusal to pay a bill of \$100 for the repair of a statue worth \$100 merely because, as he says, a blunder was committed in recasting the equanimity of his shattered treasure.

The dispute has been carried to the Superior Court. Horace Appel, attorney for Garau, asserts if the repaired statue were to come to life it would have to remove a shoe every time it felt an inclination to sneeze. He asserts Hugo D. Anselmi, a sculptor who put the statue together again, committed the unpardonable by transposing a toe and the nose.

The claimant is in a bind, while an old fable. A man who was shaving was startled, so the story goes, chopped off his nose by an involuntary movement, dropped his razor and a toe was severed. In his hurry he stuck the toe where the nose should have been and the nose where the toe belonged. The members headed off by him bound them and everything was lovely except when he felt a sneeze coming.

STREET-CAR HANDIT BUSY.

Returns From the North for More Money After Spending Thirteen Weeks. How He Spent His Time.

The street car handit returned from his six-weeks vacation last night and started to work again. He told the crew of a Stephenson-avenue line car that he was out for a little exercise, and took all their money, about \$19.

The hold-up occurred at the end of the line near the Jewish cemetery. Conductor J. J. Luther was changing the trolley when the hold-up man with the same old handkerchief, mask and gun greeted him.

"Hold up your hands," he ordered. "I'm back again."

"So be it," said Luther, and surrendered his money belt.

While the handit was collecting the change, he conversed rapidly.

"Been off a long time, about six weeks. Got money to tide me over. Took a run to Trice. Nothing there. Got to get some more. Did pretty well tonight, didn't you? Well, so long. Just out for a little exercise. Going to get busy right now."

The motorman was turning the seats inside when it all occurred.

THE POOL WHO FEEDS THE MONSTER.

A Great Fear if Nationally Used. BY C. W. POST.

[Leslie's Weekly:] A heedless clerk, each morning get the sweeping in a closet, because it was a very easy way. They included greasy waste, rags, etc., etc.

As the amount grew the danger increased, and when the conditions were ripe, the fire destroyed the business. Spontaneous combustion!

Every business house which pays money to advertise in the newspapers and magazines whose columns pander to the mob spirit is piling up "greasy waste, cotton rags, etc." in its closet, and will have to pay the bill some day.

Such papers seek circulation among emotional persons, whose hate for thrifty people is cultivated day by day.

Every man who employs men is sneered at and covertly or openly derided. No opportunity is lost to assail "business" whether deserved or not.

The strange, weird thing which makes some men stand aghast is that same intelligent chiefs of great industries will allow their advertising managers to keep on pouring out money to such publishers to be used in steadily carrying on the campaign towards mobocracy.

Alongside a great automobile advertisement may be found an article denouncing manufacturers for some expression of opinion regarding safety.

It is quite true, right this minute, for every patriotic citizen who hopes to see his country prosper and his family and employees live in peace, to take his stand regarding these wreck-advancing publications.

Let the head of every industry which advertises its wares carefully scan publications and promptly see that the advertising manager stops paying money to the class of papers here referred to.

There will be an immediate howl about "the advertising trying to dominate the press, etc. etc."

Now let's throw that question out. Under our present laws a man's money is his own to expend as he decides. (Notive "our present laws.") He can buy or not, as his own judgment indicates.

He can read or refuse to read any publication.

He acts well within his rights when he declines to contribute money to any cause or campaign he does not approve of. On the other hand he would exceed his rights "if he attempted to use advertising money to buy editorial endorsement of wrong."

"TUMBLER" INTO HOSPITAL. Comedian-Acrobat Takes Ride on Top of Puller Wagon, Not in It. Drinks Chloroform.

R. V. Davis, comedian-acrobat, formerly with the Hinglins, who wears his initials into the stars name of "Arvie," played last night the funniest thing he ever thought or heard of, he says. He was strolling along lower Central avenue, speculating how near bubbling bankers could be found. Inquiries disappointed him. He decided it was too far to go to a moon, so dropped into a drug store and bought a vial of chloroform and drank it.

The police next heard of Arvie as entertaining later homegoers with his free antics along the street. An auto was sent after him. When the car arrived and the police told Arvie to get in, he took three short steps, vaulted to the top of the car and sat on the roof, refusing to come down. He was driven to the Receiving Hospital in that position.

When he reached the hospital he retired from his perch by crawling down with his hands, his feet high in the air. When he reached the sidewalk he ordered the doors open and started a series of handspins that ended directly in front of the surgeon.

He was motioned to get onto the operating table. As a preliminary to the move, Arvie turned handspins around the table, twined himself around the operating table, and then closed himself on the top, serpentine fashion.

TOURISTS ON DECK.

The meeting of the Woman's Missionary Society at the First Methodist Church, yesterday morning, was notable for the very large number of tourists in attendance. Representatives from New York, Ohio, Iowa, Indiana and Texas were introduced by the president, Mrs. Walter Fisher.

Miss Emma Knox, missionary to Peking, spoke of educational work there among women and girls, after Mrs. Jessie Kam Wing, a Los Angeles-born young Chinese woman, sang very sweetly while Miss Elizabeth Chan, the little daughter of Mr. and Mrs. Chan Kiu Sing, played a piano solo.

UN BALLO IN MASCHERA.

Mexican Colony to Conclude Pre-Lenten Festivities With Fancy Dress and Masquerade Ball.

Pre-Lenten festivities in the Mexican colony will close this evening with a fancy dress and masquerade ball at the Elbel Clubhouse under the auspices of the Club Mexicana. Late in the evening a banquet will be served, and "La Jota" and other Mexican-Spanish folk-dances will be the order. In attendance, as indicated by the acceptance, will be many representatives of families prominent in the early history of California.

The officers of the club are: Herando Bas, Mexican vice-consul, president; Executive Committee, Dr. Jose Samaniego, J. J. Farías, J. Guillermo Dominguez, Manuel Alvarez and Antonio Hernandez, secretary. On the Ball Committee are: Misses, Lea P. Mariscal de Bas, Concepcion O. de Clark, Dolores M. L. de Macanias, Maria P. U. de Lopez del Castillo, Concepcion Urrea, de Yerbe, and Maria de Rodriguez.

Details of the ball were planned Sunday, when forty Mexican families picked at Verdugo Park. There were addresses by Antonio Hernandez, Manuel Beltran and others. An informal dance was held later in the city.

Methodist Minister Recommends Chamberlain's Cough Remedy.

Rev. James A. Lewis, Minn., writes: "Chamberlain's Cough Remedy has been a needed and welcome guest in our home for a number of years. I highly recommend it to my fellows as being a medicine worth of trial in cases of colds, coughs and croup." Give Chamberlain's Cough Remedy a trial and you are confident you will find it very effective and continue to use it as occasion requires for years to come, as many others have done." HOME OF THE KNIGHTS.

New Clubhouse to be Begun on Flower Street—Fifth of a Million to be Expended on Comforts.

Ground-breaking for the new Knights of Columbus home, to be located on the east side of Flower street just below Fifth, will take place on Sunday afternoon, February 11, when a shovelful of earth will be turned.

From that time on work will be rushed on the five-story club building which will have a street frontage of sixty-one feet and a depth of 153 feet. The basement of the building will contain a large gymnasium, plunge, bowling alley, locker room, baths and the mechanical equipment.

The first floor will contain an auditorium with a seating capacity of about 800, with the second floor devoted to a balcony which will add several more hundred seats and also contain rest rooms and a large parlor. The auditorium will contain a stage of ample proportion for the presentation of amateur theatricals and will also afford a dance floor for ballroom purposes.

The third floor will contain a large lounge room, with ante rooms, store rooms and a kitchen, so that banquets will be possible. The fourth and fifth floors will be devoted to billiard, card, smoking, library and other rooms essential for an up-to-date club, in addition to a number of sleeping rooms for resident members and executive office rooms.

The cost of the building will be about \$250,000, as planned at the present time. The lot on which it will be located was purchased by the Knights of Columbus in 1911 at a cost of \$25,000 and which they have refused \$75,000 for within the last month.

LOS ANGELES TOURISTS.

Were in the Hotel Fire at Aiken, South Carolina; Escaped With Losses.

Charles H. Sessions, president of the Los Angeles Creamery Company, and Mrs. Sessions, were in the Pine Park Hotel at Aiken, S. C., when it burned. A telegram received from them dated at Hampton Hotel, Augusta, Ga., yesterday, states that they lost everything except the clothes on their backs, but were all right otherwise. They were in Aiken for the benefit of the health of Mrs. Sessions. They will remain at Augusta for a while.

WHY HE IS DESERT.

Man Summoned as Volunteer in San Francisco Court Attends Charity Ball and Overlooks.

Passing most of last Thursday night as one of the patrons of the charity ball at Pasadena, and the consequent late rising Friday morning, was the reason given by Robert A. Rowan in Judge Wellborn's court yesterday, for not having obeyed the summons to act as a juror during the January term of the United States District Court.

"I attended the ball," said Rowan, "and did not get to my office until about noon. I intended to respond but was out on a business errand and did not get back to my office until 6 o'clock. I am sorry I overlooked the matter, but I would have liked to serve on the jury."

The explanation evidently was considered sufficient by Judge Wellborn, for Rowan was excused.

George W. Bayley, who has offices in the Story building, also arrested for failure not to respond to the summons, said he had intended to do so, but had overlooked the date. He was excused.

BUILDING IS STILL ACTIVE.

Riverside Resolutely Goes Ahead Building a City.

School Enrollment Shows Increase in Population.

Assessor Will Make Reduction in Tax Valuation.

RIVERSIDE, Feb. 3.—The January building record has eleven new homes to its credit and a valuation of \$24,425. This is somewhat under the average, but a remarkably good showing in view of the jolt administered to the citrus districts early in the month.

Other signs of continued prosperity are observable in the bank clearings, which amounted to \$1,122,000 for the month, and in the postoffice receipts, which were \$171,125 per cent. in excess of the total for the corresponding month a year ago.

The school enrollment has steadily increased since the first of the year, the most recent report of City Superintendent Wheelock revealing a total of 2124. This is somewhat under the average, but a remarkably good showing in view of the jolt administered to the citrus districts early in the month.

BY OWEN R. BIRD

### Mr. Wad Is Tight

The dreaded first semester examinations are over and some of the students of the Southern California Institute of Technology are now in a state of relief. The students who have been in the hospital for the last few days are now in a state of relief. The students who have been in the hospital for the last few days are now in a state of relief.

been a member of the A.A.U. for a long time and most have studied its rules, for to become a member he had to answer certain questions that would have shown him that it was wrong to play basketball for money. From an amateur standpoint, but he did not seem to care and now finds himself in bed as far as ever representing an amateur organization.

### The Southern Case

Forrest Smithson was thrown out of the local branch of the A.A.U. for attending an Olympic track meet in Los Angeles last year and competing as an unattached athlete, after he had been sent to represent the L.A.A.C. and had taken the L.A.A.C. entrance money. He knew better than this, having been under the body for more than eight years but he thought he could get by. They must be stopped, however, and thought it makes sense of the misfortune case.

### The Team Relay Meet

The Southern California relay team, which is to be held on Bear Field, is now in a state of relief. The students who have been in the hospital for the last few days are now in a state of relief. The students who have been in the hospital for the last few days are now in a state of relief.

### Kelly Rapidly Improves

The work of Fred Kelly, the Trojan Olympic hurdler champion, is attracting a great deal of notice at the present time. After his great work on the Olympic team last summer, many said that he would no longer be a hurdler, but he has proved them wrong. He is now a hurdler and is improving rapidly.

### U.S.A. Varsity House Underway

The varsity house is going full blast. The U.S.A. and the U.S.A. are now in a state of relief. The students who have been in the hospital for the last few days are now in a state of relief. The students who have been in the hospital for the last few days are now in a state of relief.

### Captain May Be a Star

Corporal, the Phoenix High, who has been in the hospital for the last few days, is now in a state of relief. The students who have been in the hospital for the last few days are now in a state of relief. The students who have been in the hospital for the last few days are now in a state of relief.

### A.A.U. Meeting

The A.A.U. meeting was held on Sunday, Feb. 3, at the Los Angeles Convention Center. The meeting was attended by a large number of athletes and officials. The meeting was a success and the athletes were in good luck.

### Englishmen to Enter the Lists

The Englishmen are now in the lists for the upcoming track and field season. The Englishmen are now in the lists for the upcoming track and field season. The Englishmen are now in the lists for the upcoming track and field season.

### Track and Field Dates Not Fixed

The Southern California intercollegiate track and field championships, which were to have been held on March 25, are now in a state of relief. The students who have been in the hospital for the last few days are now in a state of relief.

Some of the Racers at Exposition Park.

Three good ones which will undoubtedly be sent around the California circuit this season. Clarence Berry (top) wearing up his 2:10 pace; Jeff. Sam Watkins, Little Bertha (middle); Ed Delaney's Kachabid (left), with a record of 2:10 1/2.

### WOLVERTON IS AFTER PLAYERS.

BY A. F. NIGHT WRITER TO THE TIMES  
CHICAGO, Feb. 3.—Harry Wolverton, manager of the Sacramento club of the Pacific Coast League, who was here today, attempted to purchase three recruits from the Chicago American League baseball club, and Martin Berghammer, a shortstop from the local National League team. He said he needed an infielder, an outfielder and a pitcher.

### Bandages Bad for Hands

(Continued from First Page.)  
he came back he would beat him up and take a shot at him. As soon as Smith disappeared, Tim beat it for the hotel as fast as he could. He was a good runner, and he was a good runner. He was a good runner, and he was a good runner.

### Foreign Cars at Ascot.

(Continued from First Page.)  
will be by order of the chairman of the W.A.A. George Hill, who is to drive the Fiat against Frank Campbell, on the Napier is one of the drivers who is coming into the limelight since he defeated Bob Burman in the San Diego road race. Hill will start with money of the fast sure of a victory for the lad who has shown so much class in the smaller meets held in San Francisco and in Santa Ana. Verber holds the world's twenty-four-hour track record and has had much experience as a driver of fast cars.

### BROWN TO LEAVE FOR COAST TODAY.

BY FEDERAL WIRELESS LINE TO THE TIMES  
NEW YORK, Feb. 3.—(Special Dispatch.) Knockout Brown, who is to exchange saloons with Joe Rivers in a twenty-pound bout at Vernon on Washington's Birthday afternoon, will leave for Los Angeles today, accompanied by his manager, Dan Morgan, and his brother, Adam.

### Bank for Americans

CHICAGO, Feb. 3.—(By A. F. Night Wire.) Hank O'Day, last season manager of the Cincinnati National League team, will sign a contract in a few days to be an umpire in the American League, according to information given out by his friends here today. The deal is said to be a good one, and O'Day claims \$1000 bonus for his services.

### Many Entries in Futurity Stake.

(By A. F. Night Writer to the Times)  
LEXINGTON, Feb. 3.—Nine hundred and seven stallions are reported as having had the second payment made on them for Kentucky Futurity for 1918. This compares all previous records in point of numbers. The Walnut Farm heads the list with eighty-two youngsters. The Patchen-Wilkes farm is second with seventy-three. The Empire City farm is third with thirty-three, while thirty-seven other stables have entered from five to twenty-nine of their stallions.

EGGS MAY GO HIGHER.  
Market is firm because of shortage in storage—Decline Expected After Next Rain.

The shortage of the storage egg supply is a serious factor in causing the market to show a pronounced upward tendency, according to prominent dealers, who believe that higher prices are likely to be witnessed.

They contend that a plentiful supply of fresh eggs is not to be expected until another rain, and although this seems about due, it is likely that an advance will occur meanwhile. If it had not been for the shortage in storage stock, it is believed that fresh eggs would have been considerably cheaper by this time.

The market has not advanced materially yet, but prices were rather high yesterday in San Francisco as compared with those locally, and unless something unforeseen occurs it seems likely that conditions in the north will bring about an advance here in a day or so.

Earlier in the season the storage supply of eggs was very large, and this is reputed to have been the cause of the lower-than-average prices which prevailed for a time.

While the fresh egg supply has improved it is generally conceded that it is far short of the city's demand. The market has of late been very irregular, having been influenced by a number of different conditions, and there have been spasmodic movements both upward and downward.

There was a decline of about 2 cents last week followed by a reaction of 1 cent Saturday. Since then the market has remained unchanged.

Any advance that may occur will be of temporary character, however, because of the approaching increase in the local fresh egg supply.

CROSS-COMPLAINT.

Romance of Twelve Years Goes to Smash in Suit for Divorce—She Says He Earns Great Deal, but He Says He Has Had to Borrow on Salary—Hundred for Support.

A romance of twelve years went to smash in the divorce court yesterday when P. Noonan, an architect of this city, opposed his wife's attempt to obtain temporary alimony. There was an inkling of charges to come when Mrs. Noonan referred to any dinner at local cafes costing from \$40 to \$100.

Noonan lived in Ohio. A neighbor was the girl he afterward married. She was extremely handsome, bright and ambitious. He, too, was handsome and had a fondness for the stage. Mrs. Noonan and he brought his wife to this city and established himself in business. They lived in a fashionable district and appeared devoted couple. They have one child, now 7 years old.

Their friends were surprised to learn that Noonan had filed suit for divorce. He alleges his wife deserted. She filed a cross-complaint, charging cruelty. The examination yesterday was conducted to ascertain financial income. His wife asserted he makes a great deal. Noonan said he has obtained loans from money lenders and has sustained his salary for six months, paying 10 per cent interest.

The court ordered Noonan to pay \$100 a month for the support of his wife and child.

Allegations of extravagance were charged against Mrs. Noonan. She retailed by saying it was not uncommon for her husband to pay a dinner bill running into three figures.

## PROVOKES JUDGE.

## NEAR-LAWYER CRITICIZED.

John Lapque, who is not a lawyer, but has filed a number of suits in the Superior court, and prosecuted his cases, was criticized yesterday by Judge Conroy for the manner in which he prepared documents in his suit against L. L. Dunnigan, Horace Appel and Eugene Plummer.

The court sustained Appel's demurrer without leave to amend and the demurrers of Dunnigan and Plummer were sustained.

His complaint includes a narrative of crimes in Wyoming and Nebraska. He served several county jail sentences and one year in a Nebraska prison for highway robbery. He also served in Casper, Wyo., having participated in a gun fight during a poker game.

## SNOW KEEPS JUDGE OUT.

Superior Judge Stanley A. Smith of Sierra county left for home Friday without his snowshoes. When he left Los Angeles the sun was shining and there was an odor of spring in the air. As the train bore him to his beloved mountains he was reminded of the fact that he was leaving the city.

"This work I have done," the court said, "in order to dispose of the matter at this time, although perhaps I would have been justified in striking out the document with an order to prepare something more intelligible."

When the court observed that one Lapque is coming before it with a number of cases, all assigned to himself, and he appearing in person and not by attorney, it became appropriate to suggest that he do so.

The plaintiff, that the law does not countenance the practicing of law before the courts by persons who are not qualified themselves to practice law in courts of record.

Lapque's complaint contains thirty-one pages, to which are attached documents comprising thirty-four additional pages.

## HUSBAND GETS LITTLE.

## WIFE AWARDED PROPERTY.

Haynes was a decree of divorce on the ground of desertion. Mrs. Holmes retained the home, the car and the furniture. The property of the Holmes Disappearing Bed Company, is now awarded all of the community property, estimated to be worth about \$100,000. The property includes the Hotel St. Mark and the Majestic Apartments. She also receives 75 per cent of the stock of the bed company.

A bundle of letters which came into Mrs. Holmes possession was produced in court during the divorce trial and read by Judge McGowan at home. The letters included a photograph of a woman. Mrs. Holmes said she obtained the letters at the general delivery window of the postoffice. The letters were addressed to an assumed name, and the manner in which she came in possession of them was by an order in the postoffice found among business letters on her husband's table.

Mrs. Holmes testified it was her husband who gave Holmes his beginning in business. She was his manager, and she started the court by declaring she put the receipts of her hotel property in her husband's pocket. She left him. The court gave her an order to bank the cash in her own name.

## SIGNS JUDGMENT.

## HUSBAND PROTECTS WIFE.

The aftermath of the McCann divorce suit came yesterday when it was announced that Owen McCann, a wealthy Pittsburgh produce dealer, will sign the \$125,000 judgment entered in favor of his wife by Judge Monroe. The case went off calendar yesterday.

Mrs. McCann was granted a decree and awarded judgment. McCann refused to execute a mortgage as security for the judgment. He was ordered to pay the judgment, but he held that executing the mortgage would affect his credit.

The bond and mortgage at first included all of the property in Pittsburgh which it developed is owned by McCann and his brother. Attorney Scott, at the suggestion of the court, agreed to include in the papers only McCann's interest. He stated yesterday his idea was to protect Mrs. McCann.

## SHORT BUT WILD.

## CRIMINAL CAREER HALTED.

The doors of Folsom Penitentiary will close on Max Weeks, alias Bert Austin, aged 24 years, after a short but desperate career. He was captured in Pasadena December 28, last, after having broken into the residence of J. A. Mead, No. 50 Grand avenue, and terrorized the occupants with a revolver.

Weeks was sentenced to Folsom for ten years by Judge McCormick yesterday and smiled when the court
